(a)
incoherence 1 − R (Kuramoto)
bifurcation parameter a
dispersion 0
dispersion 0.5
dispersion 1
(b)
change of FC after GSR / noise
bifurcation parameter a
below sampling noise
(c)
a ∈ [0.02, 0.05]; colours as in (a,b)
change of FC after GSR / noise
G = 0.1
G = 0.2
G = 0.4
